4. Information and documentation to be provided by the applicant

The following information **must** be provided if applicable (in addition to the application form):

- Name and address of landowner;
- Permit or reference number (if applicable);
- Title of land (photocopy preferred) or property description including street address, parish name, CA number, section number, lot number and LP or PS details;
- Purpose of application e.g. dwelling, subdivision, earthworks;
- An accurate sketch showing location of proposal on property
- An accurate locality plan of the property showing existing boundaries (and proposed subdivision boundaries, if applicable); and
- A regional locality plan to determine the property's whereabouts within the catchment.

The following additional information **may** be required, if applicable:

- Existing and proposed use of the site;
- The number of people expected on the site during normal operations; and
- An accurate locality plan of the property indicating:
 - existing natural surface levels, including levels at the proposed building site and along the access-way to the property boundary;
 - existing and proposed buildings, including floor levels;
 - existing and proposed earthworks, including finished surface levels, embankment alignments and crest levels;
 - existing and proposed fencing;
 - existing and proposed road or access-way alignments and crest levels;
 - existing and proposed drainage systems, including waterways, pipelines, drains, culverts and bridges; and
 - other important physical features upstream and downstream of the property that may affect flows, such as levee banks, fences and retaining walls.

5. Examples of documentation to be provided by the applicant

Regional Locality Plan

Can be a copy of Vicroads Directory or CFA map.

Locality Plan

This should show the property boundaries as well as adjacent properties and several identifiable roads.

Sketch of Proposed Works

This should show a reasonably accurate location of the proposed works within the subject property.
